

Fernando!

Jesus said, “Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these.” Matthew 19:14

He communicates Love!

Fernando is a timid and loving child whose impact on the lives of those around him is profound. Fernando communicates love. He is a giver. He gives not for show or to win approval, but rather gives from his heart. The best way to illustrate his giving and loving spirit is to tell a brief and simple story.

Fernando, along with all the other boys, loves to play games on the cell phone. Each time someone arrives to HCN with phone in hand, a huge circle of little boys forms around them saying “prestame su celular.” Fernando is not in this group. He will timidly ask if he can please borrow the cell phone to play a game. If one says yes, he will smile like you have just given him one million dollars and begin playing games. When another child comes along and asks to play, Fernando always hands the phone to the other child without a hint of complaining. He gives one of his favorite things up so that another child may experience the same joy. Thank you so much for loving and caring for Fernando.
